DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-19, 21-21, 23-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Elijah (4541229).

Elijah discloses and as shown for greater clarity:

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 20, 22, 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Trefz et al (6543560), in view of Harden et al (5540558).

Trefz however discloses a clutch, pulley brake assembly for pulley system utilizing an actuator.

Elijah discloses an improved actuator.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the clutch, pulley brake assembly of Trefz with the teachings of Elijah, in order to better control the actuator.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yanagihara, Murakawa et al., Harada et al., Bedis, Moriya et al., Van Noord, Botello et al.
